#### 1. fact sheet

The Vorteilswelt of GMX and WEB.DE offers you an individual way to successfully sell your product or service.

- With our referral marketing, we direct prospective customers to the landing page of the offer in the Vorteilswelt.
- Well-informed users will be directed further to your website.
- High conversion and low bounce rates generate leads and orders in a short time

If you have any questions, please contact: Email: <a href="mailto:vorteilswelt-anfragen@uim.de">vorteilswelt-anfragen@uim.de</a>

Status: 25.10.2022

#### 2. details of delivery

- The required and complete documents must be delivered to <a href="worker-anfragen@uim.de">worker-anfragen@uim.de</a> at least 15 working days before the start of the campaign. If the documents are not delivered on time, United Internet Media cannot guarantee that the campaign will start on time or that it will be integrated without errors.
- United Internet Media reserves the right to approve and, if necessary, reject each graphic.
- All content must comply with the present specifications. Elements that do not comply with the specifications cannot be used and cannot be corrected by United Internet Media.
- All forms of advertising are subject to an internal approval process.

#### 3. required documents

- Filled in Text Template
- Visual
- Logo

#### 4. text templates

- The text templates (one text template per portal) must be completed in full and sent to United Internet Media. The maximum number of characters specified must be observed. The specified number of characters includes spaces. United Internet Media reserves the right to adjust the texts if the maximum number of characters is exceeded.
- The completed text templates are used as the basis for the landing page in the WEB.DE/GMX Vorteilswelt (vorteile.web.de, vorteile.gmx.net) and the booked media. If display media and/or a newsletter are included in the package, they link directly to the landing page in the Vorteilswelt. The situation is different with an Inbox Ad. When clicked, this ad forwards the interested person to the advertiser's website.
- It is important that the text makes it clear what the incentive is, for example discount or voucher.
- Capitalization is required after each bullet and superscript digits are used for the footnote. In addition, we use the € sign in our texts. Please take these requirements into account when filling out the text template.
- It should be noted that we generally use the first form of address and gender-neutral language with WEB.DE and GMX.
- Optional content: Depending on the package booked, the module for the portal newsletter and/or Vorteilswelt newsletter must also be completed.
- The headline and subline in the text template also serve as a template for the display media.
- If there are different incentives or product offers per userlevel (freemailer and paymailer), the text variants per
  userlevel must also be delivered.
- A unique tracking link is required for each portal, which is installed on the landing page in the Vorteilswelt. It is important to ensure that these links are without redirects. No cookie may be set before the consent query. This also applies to any links on the landing page in the Vorteilswelt, for example, if the advertiser's contact is linked to.

#### 6. recognition effect due to logo integration

By using the WEB.DE/GMX logo on your landing page, the performance of the campaign can be additionally increased. The recommendation marketing is transferred from our portal page to your landing page and the interested person still feels picked up when leaving the WEB.DE/GMX detail page.

Under this link our Logo can be downloaded:

https://1and1.frontify.com/d/N086v9MHsCPD/gmx#/basics/logo

Please follow our CI guidelines when including the logo.

The logo should be accompanied by an addition of your choice:

- Ein Angebot der WEB.DE Vorteilswelt
- In Kooperation mit der WEB.DE Vorteilswelt
- Ein Service von der WEB.DE Vorteilswelt
- Ein Partner von der WEB.DE Vorteilswelt
- Powered by WEB.DE Vorteilswelt

Position and font of the addition can be determined by you.
